SUMMARY

Product professional shipping customer-facing **B2B SaaS and AI** products alongside engineering teams, with hands-on **SQL** and **Python** experience delivering solutions for Fortune 500 clients. Delivered Harrods' forecasting solution across 13M+ transactions, producing a **£239M** 2026 revenue view to support commercial planning. Recognised twice with **Delivery Excellence** awards.

SKILLS

Product: Product Strategy, Discovery & User Research, Roadmapping, PRDs, Backlog Prioritisation, KPI Definition, Funnel & Conversion Analysis, Go-to-Market, Agile/Scrum, Solution Architecture, Stakeholder Management

AI & Data: Python, SQL, LLM APIs, RAG, AI Agents, Machine Learning, AI Evals, Data Analysis, Power BI, Tableau

Technical: Java, C#/.NET Core, JavaScript, REST APIs, AWS, Azure, GCP, ETL, Docker, CI/CD, Git

Tools: Excel, Figma, Jira, Confluence, Claude Code, Cursor, LangChain, n8n, [Make.com](#)

PROFESSIONAL EXPERIENCE

Talk to Magpie AI

Aug 2026 – Present

Product Manager Associate

- Ran **15+ discovery interviews** with hotel operators and their teams, mapping how day-to-day processes actually work and where an AI-native workflow could remove manual steps
- Specified AI behaviour for voice-based roleplay training with engineering and design, defining edge cases, failure paths, conversation-state handling and release acceptance criteria
- Tested releases across **100+ scenarios** covering voice UX, intentional pauses, assessment flows and recovery, catching AI-response failures before customers and tracking fixes to deployment
- Recommended changes to make AI scoring and coaching feedback more explainable and evidence-based, feeding user insights into roadmap decisions with the founding team

Harrods

Mar – Jun 2026

Student Consultant, LBS London Lab

- Ran discovery with commercial and finance leads to turn an unscoped forecasting ask into a defined scope, agreed success criteria and a measurable accuracy target
- Analysed **13M+ transaction lines** surfacing the **1% of visits driving 23% of revenue** and separating one-off mega orders from recurring demand to give stakeholders a defensible planning base
- Presented monthly and quarterly forecasts to leadership, with **6 of 10 categories within 15%** on backtest; the **£239M** 2026 view was adopted into commercial and resource planning

Perficient Inc

Jun 2023 – Oct 2024

Associate Technical Consultant | Clients: Cigna, Caterpillar, Aristocrat

- Led the re-engineering of Northshore Care Supply's eCommerce experience across product listings, checkout and payment integrations, improving transaction reliability and reducing purchase-funnel drop-off
- Translated HIPAA requirements into specs for a multi-agent healthcare assistant (role-based access, PII masking, audit), clearing compliance with **zero findings at 10,000+ daily queries**, sub-2s response and **99.9% uptime**
- Prioritised an agent-orchestration roadmap with a manufacturing client, sequencing research, validation and summarisation into one AI workflow that cut **analyst review time by 50%**
- Built the business case for Google Document AI invoice automation and drove the rollout, removing **80%+ of manual data entry** and returning **1,200+ staff hours a month** to finance

Code Facts

Jan – May 2023

Software Development Intern

- Built and documented RESTful APIs in C#/.NET Core on Azure behind client onboarding workflows, wrote the acceptance criteria, and resolved cross-service defects in CI/CD, cutting deployment failures by 25%

EDUCATION

London Business School, London, UK

2025 – 2026

Master's in Analytics and Management

Vellore Institute of Technology, Amaravati, India

2019 – 2023

B.Tech, Computer Science & Engineering (Networking and Security)

GPA: 8.34/10.00

ADDITIONAL INFORMATION

Ventures: Nexus (Co-Founder & Product Lead) – owned the roadmap and shipped the 0-to-1 AI networking MVP

Research: Fine-tuned CNNs for cryo-ET to 90% accuracy on 10K+ images with transfer learning and Explainable AI
